## We've got your home covered

Hello Scenario

Thanks for insuring your home with Churchill. We've set up your **Churchill Plus home insurance** and we're ready if you need us.

### What we've included in your pack

- > Home insurance details > [See page 3](#)
- > Insurance Product Information Document > [See last page](#)

Your policy is made up of your home insurance details and home insurance policy booklet. You can find your policy booklet in the 'Policy documents' section of My Account.

### What you need to do

#### 1 Please check all the details carefully

- > Read through your policy documents, including the information you gave us. Is everything correct and complete?
- > If anything's wrong or missing, or you're not sure about something, please let us know straight away.
- > This is very important as any mistakes or incorrect information could lead to a claim being rejected or not paid in full. It could even mean your policy is not valid.

#### 2 Has anything changed since you got your quote?

- > Have you had a claim or home improvements? Anything like that could affect your policy or a claim being paid, so let us know straight away if anything has changed.

#### 3 Please check your endorsements

- > Your home insurance includes some endorsements - please make sure you've read and understood them.
- > You can find your endorsements on page 5.

[Continues on next page >](#)
